

Task Group 1 – Fatigue

Guy Baylac

EPERC – TG1 Chairman

guy.baylac114@gmail.com

Draft Agenda of the second Teams® meeting of TG1 Wednesday September 22nd, 2021 14,00 – 17,00 CST

Dear Colleagues,

The second meeting of TG 1 will deal with the following topics:

1. Preparation of an Annex to Clause 18 EN13445.3 on Plastic Fatigue
2. Preparation of an Annex to Clause 18 EN13445.3 on Fatigue in presence of Hydrogen
3. Modifications to introduce in Clause 18 following remarks of Claude Faidy (see report of last meeting of SG Design Criteria)

The meeting will be held as a web conference using Microsoft Teams®. **All members and experts wishing to participate are kindly requested to register themselves on the EPERC web site, under “Seminars, Conferences and Meetings” in order to receive the link for the connection.**

Guy BAYLAC - Consultant for Pressure Equipment

114, Avenue Félix Faure - 75015 Paris

Tel. +33 1 45 54 93 34 - Mobile +33 6 17 36 15 26

guy.baylac114@gmail.com

EPERC web site: www.eperc-aisbl.eu

NOTE:

Participation is free for all EPERC individual and company members. **As an exception to the actual EPERC Statute**, in order to promote participation to the research work of EPERC, **the Board of Directors has decided to admit free of charge at this second meeting of TG1 also qualified experts having an experience on Fatigue**, in order that they can evaluate the possibility of joining EPERC as members in order to participate also in the future meetings of this fundamental Task Group.

I wish to remind that **one of the main objectives of EPERC is to promote research projects organized by a suitable group of individual members or member companies financially supported by the Commission**, and this is very well possible considering the program of work presented in this agenda. Instructions and fees for joining EPERC (for individuals and/or companies) can be found under “Join us > membership”.

Kindest regards.

Fernando Lidonnici

EPERC Chairman
